Subject: RE: 2016 SLAB annual report

Sir,
Spofford Rd is my home. I have never shipped from there.
77 North Rd in Deerfield, NH was officially vacated by me on 6 Aug 2015.
I was 1 year without a facility so no shipments were made in 2016.

Wally:

Both of your locations had valid consents to export in 2016.

Please
confirm that your 75 Spofford Rd, Auburn, NH 03032 location and your 77 North Rd, Deerfield, NH 03037 location were
non exporters of SLABs in 2016.

Thank you.

Subject: Re: 2016 SLAB annual report

Sir,
I had
renewed my permits in Canada. In 2016 there were no shipments by me of SLABs to anywhere outside the US. This
year I informed Terrapure and Tonolli that until further notice there will be no further shipments made by this
company. Subsequently my permits for 2017 have not been renewed. I have a local dealer in New Hampshire picking up
my SLABs and have no plans to ship (and did not ship in 2016 or 2017) any SLABs to anyone outside the US. Should that
change I will inform you.

Regards,

Wally Titcomb

Dear US Primary Exporter of Spent Lead
Acid Batteries:

Our
records indicate that during 2016 you had a valid consent for the export of Spent Lead Acid Batteries (SLABs). If you
did export SLABs during calendar year 2016 your Annual Report was due by March 1, 2017.
If you did

not export SLABs during 2016, please send us an email stating that your company did not export SLABs during calendar year 2016. Your submission should be mailed to me at the address shown below.

As you

may be aware, the EPA finalized a number of changes to the hazardous waste import-export regulations, which are effective on December 31, 2016. However, please note that export shipments of hazardous waste operating in compliance with an Acknowledgment of Consent (AOC) letter issued by EPA prior to December 31, 2016 are subject to export requirements in effect at the time their AOC letter was issued until the consent expires. Your AOC was issued prior to December 31, 2016.

Under the rules that were in effect at the time your AOC was issued, exporters that shipped SLABs to Canada, Mexico, or any country not belonging to the Organization for Economic Cooperation and Development (OECD) must submit an annual report containing all

items of information found at 40 CFR Sections 262.56

(a)(1) through (4), (6) and (b). Exporters that shipped SLABs to OECD Member countries other than Canada or Mexico must submit an annual report containing all items of information found at 40 CFR Section

262.87(a). Annual Reports not meeting these requirements, as applicable, will be returned as deficient. Failure to file a timely and accurate annual report of SLAB exports can result in a penalty of up to \$32,500 per day. You may access these regulations by clicking on <https://www.epa.gov/hwgenerators/resource-conservation-and-recovery-act-rcra-requirements-previously-consented-exports>

For

your convenience we have

attached a user-friendly, optional Excel spreadsheet, which you can use to submit your Annual Report.

This spreadsheet contains all the Annual Report elements you must report as required by 40 CFR

262.56 and 40 CFR

262.879(a) and provides

detailed instructions to assist you in completing your submittal. If you received this letter via mail and would like to receive a copy of the optional

Excel spreadsheet, please contact Scott Nelson at nelson.scott@epa.gov to receive the electronic file.

Should

you choose to use the attached optional Excel spreadsheet, we request that you submit it both in electronic form to me at nelson.scott@epa.gov and in signed and dated hardcopy via mail to the address listed below. Your cooperation will assist us with compiling the 2016 data expeditiously.

Sincerely,

Scott Nelson, Environmental Protection
